

Kévin dos Santos Mateus

Full Stack Developer

👤 Profile

I'm a Full Stack developer, focused in JavaScript, with solid knowledge in HTML, CSS, SQL and React.js. With a background in Aeronautical Engineering, I like to welcome new challenges, solve problems and acquire new skills. Supportive and enthusiastic team player dedicated to streamlining processes and efficiently resolving project issues.

💼 Professional Experience

Full Stack Developer Freelancer

September 2023 — present

- Building and maintaining web applications in HTML, CSS, JavaScript and React.
- Deal with the use of SQL databases and also working with the use of queries.
- Build screens for better organization, development and representation of the system.

Equipment Engineer at Amkor Technology, Mindelo - Porto

July 2020 — Dec 2021

Part of the MEMS project production line from Amkor Technology as an Equipment Engineer, where I was responsible for the management of a technical team that performed maintenance in equipment used for semiconductors encapsulation.
